What we learned

Smart Thinking | 3 units, 15 lessons

Ask your child to tell you about one of these:

1. **Spot the Trick**
   Don't get fooled - think it through
   Facts can be checked. Opinions are feelings. Always ask: could we look this up?
   Lessons: Fact vs Opinion | Where's the Proof? | Too Good to Be True | Who's Telling Me, and Why? | Boss Level: Review

2. **Break It Down**
   Crack any problem step by step
   Any monster problem shrinks when you chop it into tiny steps. Start small, keep going!
   Lessons: Big Problem -> Small Steps | Try, Check, Fix | Ask a Better Question | More Than One Way | Boss Level: Review

3. **How to Learn**
   Train your brain to learn anything
   Link it, chunk it, picture it. Do something with a fact and your brain holds on tight!
   Lessons: Make It Stick | Mistakes Make You Smarter | Focus, Then Rest | Teach It Back | Boss Level: Review
